NCHGW OU1 SOW Table 1 DRAFT Enforcement Confidential 3 16 16 jl.docx

Thank you Pete. Your input was very helpful.  
I fixed up a few more things and will send out to Nicky shortly.

Only thing holding me up is the treatability study line item in the table. That was an import from the model sow.

I have it left in for now, but our SOW doesn't discuss treatability studies except beyond the ISCO and IWVS work. The model SOW has "description of any proposed treatability studies" in as a line item for what should be included in the RD Work Plan. Do you think it should be added there in ours? I attached the current draft SOW in case you want to look.

I also attached the revised table.
